EASTHOPE ENGINE 5HP 1936

OWNER:
Pender Harbour Living Heritage Society
Donated by Sue Campbell in memory of her husband, Ryan Campbell, and in recognition of Jim Hawke, who got it working!

DESIGN:
Easthopes were known for their simple design and long life.
The inboard motor had a shaft and propeller and a clutch with forward, neutral and reverse.

HISTORY:
In 1913 the Easthope brothers of Vancouver began building two and four-cycle marine engines, from 3-18 horsepower. Most famous marine engines on the west coast during the first half of the 20th century.
It was used extensively by fishing fleets.

TIDBIT:

The four-cycles used less gas, ran smoother and were fast and reliable. Between 1913-1961 the company built 6,000 engines.
